**Subject:** Re: media inquiry coming from Parkersburg WV (Ames Warehouse Fire)

Yes but then Lawrence and I had emails after that and he agreed that should not be part of agency posting so they took it out on version on local health page.

You and I are peas in a pod when we are emailing. Sorry when I am typing a reply on my phone I don't see other emails coming in in meantime. We have highly tolerant spouses. L

**Subject:** Re: media inquiry coming from Parkersburg WV (Ames Warehouse Fire)

Hi Bernadette

I provided our media contact info to the state earlier today just to use to refer inquiries about our specific activities as needed. I specifically discussed with WV and they agreed not to post our media contact information, which is why it is not part of the agency posting if our technical assistance. The TV station when provided that info to followup with us for some reason included it in their reposting of the info on their website.

Based on this 10/27 news release from WV  
<http://dep.wv.gov/news/Pages/Air-Quality-Sampling-Results-From-Area-Surrounding-Parkersburg-Fire-Available-Online.aspx>  
We could refer media inquires about the overall incident to:

Jake Glance  
(304) 926-0499 ext. 1335  
[Jacob.P.Glance@wv.gov](mailto:Jacob.P.Glance@wv.gov)

Apologies for the Friday pm trouble.  
Lora

Hi All – We are going to ask the reporter for his questions now, in the event that he still wants information from us next week. I will let you know what we hear from him and we'll work through the clearance process.

In addition, in the short/immediate term, I seems odd to me that the NCEH/ATSDR Media phone line listed on their website for media inquiries. Do you agree that we should ask them to remove it? Or are we the lead? If you think we should ask them to remove it, where would we ask them to direct media inquiries to? The state?

Thanks for your help clearing all this up.

Cristina

Lora, I agree with what you said about transparency. Our email on the 31<sup>st</sup> was not providing guidance; we were providing a review of the environmental field monitoring. In the course of that, we tried to endorse the guidance local authorities provided. As y'all know, the press release was by WV Health through the local health department.

Ok. This was prepared as technical assistance info for the responding agencies as they continue to address the incident and not really current "guidance" for the public. However, I understand the response agencies' interest in being open and transparent with the public about our communications with them. Lora

**Importance:** High

Hi Jeff,

I'm not aware of an agency issued press release today about a fire in in Parkersburg, WV; at least from DCHI.

I'm including our Regional Director (Region 3), in this email chain for her awareness.

Lora – do you know if another federal, state, or local agencies has issued such a release.

Thanks,

Loretta Asbury

Hi Loretta,  
We got a call from a Parkersburg TV station regarding a release we supposedly sent out regarding a fire in Parkersburg, WV. I think it's actually an EPA release, but nothing is showing up. Do you know anything about this? See the Huffpo link below for more info

I did a general Parkersburg fire search and found this item. It looks to be an EPA issue, however. I'm not sure why we got called on this.

**Subject:** media inquiry coming from Parkersburg WV

A reporter from a TV station in Parkersburg, WV just called to try and get an interview with someone regarding the news release we just sent out on the Parkersburg fire. He would like to get someone by 5:00 today. I asked him to send us an e-mail request

CRISTINA: the Windows 10 conversion has wiped out my access to the Env Health mailbox, so please watch for this item.
